Restriction to one of the following invention is required under 35 U.S.C. 121:

Group 1, claims 14-23 and 34 are drawn to the composition and method of preventing or controlling cataract or cataract-like disorders, using inhibitors of TGFB, classified in class 514, various subclasses.

Group 2, claims 24-28 are drawn to the method of controlling after cataract formation, using TGFB inhibitors, classified in class 514, various subclasses.

Group 3, claims 29-33 are drawn to a lens implant, classified in class 514, various subclasses.

The above delineated inventions are independent and patentably distinct each from the other. Each of the above groups are drawn to the treatment of different conditions and would appear to seek results which differ depending on what disease or conditions being treated. One practicing the invention of one of the above groups would not necessarily required to practice any of the others. Further a reference which anticipates the invention of one of the above groups would neither anticipate or make obvious any of the other inventions. The search for the above inventions would not be co-extensive particularly as to the literature search required. Clearly each of the above invention is capable of supporting its own patent. Therefore restriction for examination purpose is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

1. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Fay whose telephone number is (703) 308-4604.
